

# Saanich Native Plants

A native plant nursery and consulting business in Saanich, British Columbia. We provide:

- Over 150 native plants and seeds native to southern Vancouver Island
- Expert restoration and gardening consultation for landowners and land managers
- Workshops, talks, courses, and educational materials
- Restoration guidelines and demonstrations

Saanich Native Plants Nursery opened in 2013 at Haliburton Community Organic Farm and is a certified organic nursery (IOPA #1305-1958)

# Wildlife

## Deer-resistant Native Plants

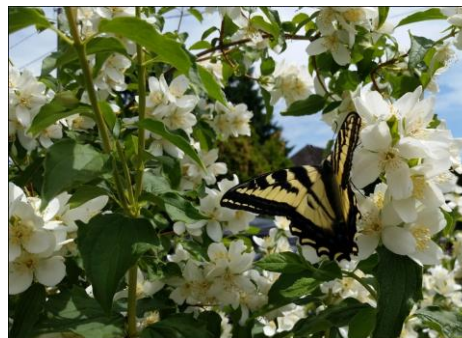

No need to give up your garden or lose hope on a restoration project because of deer. There really are some native species that deer avoid!

Entire-leaved Gumweed  
Pearly Everlasting  
Coastal Mugwort  
Pacific Bleeding Heart  
Woolly Sunflower  
Mountain Sneezeweed  
Few-flowered Shootingstar  
Broad-leaved Shootingstar  
Sedges Rushes and Grasses

Cow Parsnip  
Sea Blush  
Hedge-nettle  
Death Camas  
Yarrow

**Planting a variety of deer-resistant plants will give you colourful blooms all season long!**

# Native Plants

Our native plants are suited to a variety of habitats, including meadow, forest, wetland, and beach. We are happy to accommodate custom and wholesale orders.

# How to get started

Join us for one of our many workshops, courses, and talks related to restoration, native plant gardening, propagating native plants, and more.

Learn how to convert your lawn to a thriving wildflower meadow!

# Native Seeds

Saanich Native Plants offers the largest selection of native plant seeds on Southern Vancouver Island. Seeds are collected from our own stock and sold as custom mixes, packages, and in wholesale quantities. Visit us online for our plant and seed lists.

We've designed custom seed mixes inspired by native plant communities that will help you enhance habitat in your own backyard!
